Large Legion Delegation Will Go to Convention

Legion, Auxiliary and Ju-
nior Group Will Be Re-
presented in Milwaukee

The Antioch American Legion Post, auxiliary and Sons of Legion will be well represented at the national Legion convention in Milwaukee from Sept. 14 to Sept. 18.

Adjudant Otto S. Klass has entered the Junior drum corps in the official parade which will take up a large part of the day Tuesday.

Adjutant John L. Horan will go to Milwaukee Saturday to register the large delegation from Antioch, as many from here will attend during the various days of the convention.

The convention will open Sunday at 1 p.m. with the American Legion national chorus contest, at Shorewood High School and concerts by nationally famous bands will be given in Mitchell park at 3 o'clock.

Dinners and receptions will be held during the latter part of the afternoon and the early evening.

At 8 p.m. songs by Dennis Morgan and the Milwaukee Symphonic Male chorus will be presented in Washington park.

Contests of various sorts will be held all day Monday, with many gala events during the early evening. On Tuesday the grand parade will be followed in the evening by the observance of "Pan-American Night" at the lake front, and Wednesday evening exhibitions of champions will take place at the lake front.

Attend Dist. Installation Commander Roman B. Vos of the Antioch Legion, Vice-Commander L. C. Heath, Adjutant John L. Horan and Past Commander J. Harry Messing attended the installation of Tenth district Legion officials at Lake Bluff Wednesday.

The Antioch auxiliary president, Mrs. Frank Harden; the district sergeant-at-arms, Mrs. L. John Zimmerman; district poppy chairman, Mrs. John Horan; Past district president, Mrs. Mary Chase; re-habilitation chairman, Mrs. Walter Hills; and legislation chairman, Mrs. Anthony Johnson; attended a dinner at the Libertyville Congregational church Wednesday evening. The Libertyville auxiliary acted as hostess to the district for the dinner. Officers of the Libertyville auxiliary were installed afterward.

Rescue Squad's New Inhalator Gets New Call; Proves Worth

L. B. Congdon, a former Antioch village marshal and a retired member of the Chicago police force, is recovering at his home on North Main street from the effects of a heart attack he suffered Tuesday.

The E. and J. inhalator which was one of the pieces of new equipment purchased by the Antioch rescue squad with funds from the benefit dance it sponsored August 26, and the rescue squad members were given credit by Dr. A. N. Berke, attending physician, for his recovery. Berke put in a call for the squad and the inhalator when his patient, who is 79, failed to respond to ordinary remedies.

The new inhalator can be used in conjunction with the administration of oxygen or without it. Oxygen was used at first during the three or four hours that squad members "stood by" to aid the physician, but as Congdon rallied it was dispensed with.

Those who assisted, in turn, in attending the patient were Captain Herman Holbek, First Lieutenant Herman Rosing, Second Lieutenant Walter L. Scott and Squadmen James McMullen, Elmer Petersen, John Horan and Richard Allner.

Congdon was retired from the Chicago police for in 1923 after nearly a quarter century of service. He served as Antioch village marshal around 1925.

Worker Falls Through Gravel Chute; Uninjured

Eugene Pace, employed at the Buckley sand and gravel pits near Wilmot, escaped uninjured when he fell through a chute, together with a load of sand and gravel he was attempting to dislodge into a truck body below late Tuesday afternoon.

Pace was buried up to his head in the sand, but workers at the pits had already partly freed him when the Antioch rescue squad, which sped to the scene on receiving a call, arrived.

The rescue squad assisted in freeing him and brought him to Antioch, where examination by Dr. A. N. Berke revealed that he was uninjured.

The mishap occurred when Bernard Barnstable of Antioch went to the pits for a truckload of gravel. When the gravel stuck in the chute, Pace tried to free it loose, and he and the gravel went down together.

Delinquent Tax Lists Published

Delinquent tax lists for the townships of Antioch and Lake Villa appear in this edition of the News.

Taxes on some of the lands listed as delinquent have not been paid for 30 years, and there are a few owners of property that are unknown to the tax collector.

The county treasurer, who is also ex-officio county collector of taxes, will apply to the county court on Monday, September 29, for judgment against the lands and lots mentioned in the delinquent roll for the amount of taxes, due together with interest, penalties and costs.

On Monday, October 20 the lands and lots will be exposed to public sale at the court house in Waukegan. The sale will begin at 9 a.m. and will continue from day to day until the sales are completed.

Antioch Legion Holds Impressive Installation Rites

New Officers Are Also In- stated by Auxiliary in Joint Ceremony

The Antioch Legion post, which at noon last Thursday apparently wasn't going to have a guest installing officer for its joint installation with the auxiliary that evening at the Roundup, wound up with three.

At noon word had not been received from Department Vice-Commander Francis E. Phelan of Winnetka, who was in Peoria attending a department officers' conference. In the emergency, Adjutant John Horan contacted Douglas Getchell, of Grayslake, commander of the Tenth district, to pinch-hit. Meanwhile the newly-elected Antioch commandant, Roman Vos, had brought himself of a family friend, George Hockbaum, of Crown Point, Ind., also a district commander, and had telephoned to learn whether he could help out.

They Were All There!
By the middle of the afternoon, officers of the Antioch Legion were informed that all installing officers would be on hand . . . and they were. Hockbaum presided at the installation with Getchell acting as installing sergeant-at-arms. Phelan giving the charge of responsibility to the newly-instated officers, and Harry Quinn of Crown Point furnishing the climax to the impressive ceremonies by presenting a past commander's button to J. Harry Messing, on behalf of the Antioch post.

The auxiliary, with Mrs. Frank (Alma) Harden heading the new roster of officers, held its installation first. Mrs. Almond Thurlwell of Grayslake officiated as installing officer.

The men's ceremony followed, and the rest of the evening was devoted to dancing and a social time.

Adjutant Horan reported that the Antioch Legion already has a paid-up 1942 membership of 41 members.

Tip-over Puts Antioch Boys Out of Jalopy Race

Three tip-overs gave unexpected thrills to the jalopy races held Sunday on the old Hercules Powder plant grounds at Pleasant Prairie. One of the spills put out of the race an automobile entered by Calvin Harden, Robert Hemis and Harold and Robert Gaston, Antioch, which had been leading the field until then and more than holding its own on the fast track with competition that included a number of "souped-up" motors.

The Antioch boys already won the free-for-all, and their mishap occurred during the finals.

Races will be held again this Sunday at the Powder Mills grounds.

'round the lakes

Among the resorts of the Antioch territory now starting on their fall activities is John Reimers' Nahrud Casa on Route 173, west of Antioch at Fox river bridge. Trap-shooting will be at the Casa every Sunday from 11 a.m. on. Reimers announces, and prizes of turkeys, geese and ducks will be awarded.

Mrs. Ruby Richey, who is head of the home economics department at Northern Michigan College of Education, Marquette, Mich., plans to leave Monday to resume her duties, as the school term there starts Sept. 20. Mrs. Richey has been spending her vacation since the summer term closed Aug. 1 in visiting relatives at Olney, Ill., and the W. C. Petty family of Antioch.

Parent-Teacher Association Starts 1941-2 Activities

New Officers, Committees Are Made Known at Opening Meeting

Elections to fill the vacancies caused by the resignation of three officers were held at the Antioch Grade School Parent Teacher association's first meeting of the year, Monday evening at the school.

Officers who resigned were Mrs. James McMullen, vice-president; Mrs. Henry Rentner, treasurer, and Mrs. Clayton Bartlett, secretary.

Elected in their places were Mrs. A. Simons, vice-president; Mrs. Louis Bauer, treasurer, and Miss Jean Casey, secretary.

Mrs. Arthur Trierger is the new president.

Mrs. W. W. Ward and Mrs. Hugh Hufendick are delegates to the Lake County Council of Parents and Teachers. Alternates are Mrs. Elmer Hunter and Mrs. Harry Greenlee.

Committees appointed include:

Membership—Mrs. Joseph Patrovsky, Room mothers assisting—Mrs. Hugh Hufendick, first grade; Mrs. Lester Nelson, second grade; Mrs. Einar Petersen, third; Mrs. Harry Greenlee, fourth; Mrs. Roy Kufalk, fifth; Mrs. John Gaa, sixth; Mrs. J. B. Fields, seventh; Mrs. Arthur Hawkins, eighth.

Hospitality—Mrs. W. C. Petty, Mrs. Ferri Lux, Mrs. J. B. Fields.

Parent Teacher magazine—Mrs. Dudley Kennedy, Mrs. Harry Greenlee, Mrs. Earl Pitman.

Publicity committee, Mrs. Elmer Hunter, Mrs. Lester Osmond, Sr., Mrs. Fred Stahmer.

Budget and Finance—Mrs. Louis Horton, Mrs. Virgil Feltner, Mrs. Louis Bauer.

Student aid—Mrs. J. O. Austin, Mrs. Robert Webb, Mrs. Emil Lubkeman.

Legislation—Mrs. A. P. Brairude, Mrs. Vincent Nedbal, Mrs. Samuel Ries.

Program—Mrs. Robert Wilton, Mrs. A. Simons, R. E. Clabaugh.

Mrs. Trierger read the message of the president of the Illinois State Congress of Parents and Teachers, and outlined the objects of the P. T. A.

A short musical program featuring solos by Ralph Trierger, Deloris Story and Darlene Christensen (accordion), was given under the charge of Hais Von Holwedge and refreshments were served afterward.

The eighth grade was announced as winner of the "room count" of parents present.

Mrs. Elmer Hunter has been appointed assistant to the district director, Mrs. William Ziegler, Round Lake, District 26, in which she will serve, includes Boone, Lake and McHenry counties.

The auxiliary, with Mrs. Frank (Alma) Harden heading the new roster of officers, held its installation first. Mrs. Almond Thurlwell of Grayslake officiated as installing officer.

The men's ceremony followed, and the rest of the evening was devoted to dancing and a social time.

Adjutant Horan reported that the Antioch Legion already has a paid-up 1942 membership of 41 members.

Tip-over Puts Antioch Boys Out of Jalopy Race

Going through a stop sign usually has certain routine results. Either you make it, without colliding with another car, or getting pinched by a cop, and go on your way with guilty backward glances, wondering whether anybody saw you . . . or you do collide with somebody or you do get pinched by a cop with a chill eye that got that way by looking at too many sad results.

But nothing so humdrum for Roscoe Siver, of Kenosha, who was out driving with his wife, Flora, Sunday. Siver, going south on Hillside avenue, drove through the stop sign at 173, and his automobile collided with one in which Milo Bottomley, Chicago, was eastbound on the arterial. So far, Siver's story sticks to routine, but here he left the beaten path and so did his automobile. Glancing away from Bottomley's car, the Siver machine climbed a five-foot embankment, under a 150-foot semi-circle back to Hillside avenue, crossed the pavement again, went up a 15-foot embankment, made a 150-foot semi-circle 250 feet into a cornfield before it could be stopped.

Siver received body bruises and Mrs. Siver suffered cuts and bruises.

Siver was arrested by Deputy Stanley Christian on a charge of passing a stop sign.

Joseph Patrovsky and son, Joseph, Jr., are expected to return this weekend from a several days' trip to northern Wisconsin, where they have been staying at the Casa every Sunday from 11 a.m. on. Reimers announces, and prizes of turkeys, geese and ducks will be awarded.

Mrs. Ruby Richey, who is head of the home economics department at Northern Michigan College of Education, Marquette, Mich., plans to leave Monday to resume her duties, as the school term there starts Sept. 20. Mrs. Richey has been spending her vacation since the summer term closed Aug. 1 in visiting relatives at Olney, Ill., and the W. C. Petty family of Antioch.

LIONS HEAR TALK BY MINK RANCHER

The Observer

Members of the Antioch Rescue squad have expressed particular appreciation for the generous cooperation of residents at Lake Marie and other lakes nearby, in the search for the body of Thomas Wi Barth, young Cleveland student, which was recovered last week. Generous donations of boats and time, as well as other assistance, greatly aided the squad, Captain Herman Holbek states. "We certainly appreciated all the help we received and the wonderful spirit in which it was offered," he declares, on behalf of the squad members.

Wi Barth lost his life in a boating accident on Lake Marie August 28.

The lives of three others were saved by Edward Zalatoris of Cicero, who, with his wife, Maybelle, daughter of the Henry Einfelds, was in a sailboat nearby.

—

Folks in other towns wonder what people around Antioch do when the rush of the summer season is over.

"It must be dull," they say.

"Brother, you'd be surprised!"

Well, the first thing everyone does the day after Labor Day is just to draw a few long breaths and say, "Thank heaven, that's all over! Now we can really start doing things."

So the stores start getting more of their new fall merchandise—they generally have some on hand all ready, for summer residents who like (believe it or not!) to do their fall shopping before they go back to the big city of Chicago. The resorts start in on their fall programs of trap shooting, preparations for fall parties, preparations for hunting season . . . for there are lots of people who like the autumn season in the Chain of Lakes best of all.

Folks who haven't had a day off all summer go on that trip they've been wanting to make, or that visit to people they've been wanting to see for a long time.

And, by no means least, the club and social season gets going in real earnest.

Antioch is the party-givingest place we ever did hear tell of, and it's a rare citizen who doesn't belong to at least a couple of clubs, lodges or circles, too. In fact, we've heard some families say they practically never see each other except at meal-

(continued on page 8)

Van Patten New Chief of Antioch Fire Department

Charter Member, Former
Chief, Named to Suc-
ceed Stearns

L. R. Van Patten, who was chief of the Antioch fire department from April, 1917, to April, 1920, was elected to succeed former chief James Stearns at a meeting held by the firemen Tuesday evening in the station.

Van Patten is a charter member of the department, which was organized 27 years ago.

He served as president from Oct. 1932, to Oct. 1933, and as treasurer from July, 1935, to June, 1937. During the past 17 years he has been one of the truck drivers and assistant engineer.

He has for the past 20 years worked at Williams' Department store, where he is employed as manager of the hardware department.

Stearns Honorary Chief
Stearns, who has served in the Antioch fire department for 17 years, is the as chief, has been made honorary chief.

Stearns was recently appointed a deputy state fire marshal and assigned to investigation and instruction work in Lake, McHenry, Boone, DuPage, Kane and DeKalb counties.

IMPROVED
UNIFORM INTERNATIONAL
SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Dean of The Chicago Bible Institute
of Chicago, Ill.
(Released by Western Newsprint Union.)

Lesson for September 14

Lesson subject and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

THE ETERNAL GOD, THE SOURCE OF HELP

LESSON TEXT—Revelation 7:9-17.
GOLDEN TEXT—Holy, holy, holy, Lord God Almighty, which was, and is, and is to come.—Revelation 4:8.

A look into the future is something that would interest most of us, and we have it in this lesson. We agree with Dr. Wilbur Smith that "this is an excellent opportunity to bring to the hearts of our pupils some of these divinely revealed truths which the world, in its mad rush today, so easily and tragically puts aside."

The portion of Revelation, chapter seven, which is before us comes immediately after a section dealing with Israel. The Church is not mentioned. The ones spoken of have come out of "the great tribulation" (as the Revised Version rightly translates it) and are evidently Gentiles who have come to believe in Christ during that time of unparalleled tribulation described in later chapters of this book.

Our lesson therefore deals with a specific time and a certain people in connection with an event yet to take place. But we find in this passage the description of the experiences of those who, like Christians of our day, triumphed through their saying "faith in the Lord Jesus Christ. We may therefore here learn something of the future blessedness of the redeemed.

I. Saved Forever and Ever (vv. 9-12).

Salvation is a reality, and we are never going to be more certain of it than when we, like this multitude, stand in God's presence to praise Him for what He has done in our lives. It is real. Praise God!

Notice that there was an unnumbered multitude from all nations. The good tidings at the time of Christ's birth were for all people (Luke 2:10), and some from all nations respond. Note too that the hosts of the Lord are greater than we might at first suppose.

These redeemed ones had immediate access to God's throne, offering their praise direct. They were clad in the white robes of God's own purity and bore in their hands the palms of victory. They, with the angels, the elders (possibly representing the Church already caught up into heaven), and the living creatures (not "beasts" as in A.V. They are divine beings of highest character), ascribed a seven-fold praise to God "forever and ever. Amen." It is a glorious picture of completed redemption.

II. Serving Day and Night (vv. 13-15).

It should be observed that even those who came through the great tribulation did not look to their own deeds or faithfulness to save them. Their white robes of righteousness were washed in "the blood of the Lamb" (v. 14).

Now that they had reached eternity through peril, toil and pain, they would (according to many folks' idea of heaven) sit down for an eternal rest and retirement. Not at all—they found their joy in serving their blessed Lord "night and day"; that is, without any weakness or exhaustion, without any failures or defeat.

III. Satisfied Throughout Eternity (vv. 15b-17).

To be covered by the "tabernacle" of God (whatever it may mean) surely betokens the perfect and constant protection of His own presence. Everything destructive and disturbing will be gone. There will be no lack of any good thing needed to satisfy every desire. There will be no thirst unquenched and no hunger unsatisfied (see similar descriptive passage in Rev. 21:3, 4).

The redeemed are said to be under the tender care of the Good Shepherd. Himself; the Lamb (our Redeemer) who is in the midst of God's throne shall lead them, not beside "the still waters" of the Twenty-third Psalm, but "unto living fountains of water." Thus in the beauty of figurative speech, we are assured that God's provision for His children, the redeemed in Christ Jesus, will perfectly satisfy every need of soul and spirit. There is no such satisfaction this side of eternity, but we shall find it there.

Then too, there is to be no sorrow. God Himself is the guarantee that there shall be nothing in that blessed land to cause anyone to shed a tear. Think what that means! Think of the weeping of boys and girls, men and women, who in this world of hatred, sin and suffering, shed bitter tears of pain or sorrow. Well, it were almost enough to know that heaven is a place where there shall be no tears.

Remember that the promises of joyous completed redemption for these, the Gentile believers of the great tribulation, will be for all God's children, for us who believe in Christ. Reader, will you not join us today if you are still an unbeliever? Take Christ now as your Saviour.

Rent Groups to Fight Gouging

Henderson Reports Committees Established in 21 Defense Centers.

WASHINGTON.—In an effort to prevent profiteering in rents in national defense areas, the office of price administration and civilian supply reports that fair rent committees have been organized in 21 cities, and urged the creation of others where abuses appeared.

Publicity for offending landlords was suggested by OPACS, which also said that the division of defense housing co-ordination would refuse to register any dwelling unit or room, the rent for which had been declared unfair by a fair rent committee.

Quick Action Needed.

"Surveys now being conducted by federal research agencies at the request of the OPACS rent section and thousands of letters of complaint show that rapid rises in rents are under way in more than 100 defense areas," it was stated. "Quick action to head off this trend is urged by the OPACS rent section. Designation of fair rent committees, ably led, by OPACS and backed by the full force of public opinion and the local press is one method by which local authorities can curb rent profiteering."

Leadership in the rent campaign has been taken, said the agency, by citizens in Wilmington, N. C.; South Bend, Ind.; San Diego, Calif.; Newport News, Norfolk, Portsmouth, Hampton and Virginia Beach, Va.; Ravenna and Warren, Ohio; Pontiac, Mich.; Alexandria, La.; Columbus, Ga.; Mobile, Selma and Talladega, Ala.; and Hartford, New London, Groton, Waterbury and Bristol, Conn.

"Serious Offense."

Under the OPACS plan, the fair rent committee would be appointed by mayors or other responsible authorities. When organized, a committee would determine a "fair rent date," that is, a day on which local rents had not yet been affected seriously by defense activities. Tenants, roomers and lodgers would then be invited to file complaints against increases. On evidence of profiteering the landlord and complainant would be asked to appear. If the landlord complied with the committee decision, that would end the matter, but if he stood fast, "full publicity" might be given "to all the facts in the case."

Leon Henderson, the OPACS head, said that profiteering in rents during the emergency was "a serious offense against the nation's welfare."

Traveler Wasn't Praying, Mattress Needed Inflation

VISALIA, CALIF.—Dr. I. H. Betts returned to his home here after participating in a 100-mile horseback trek with a reputation among his fellow travelers for being a devout, plios man, for they had noticed that he knelt at his bedside each evening. One complimented H. A. Orrison, a fellow townsmen of Dr. Betts, on the fact that the physician prayed so regularly.

Orrison investigated the next evening. Sure enough, Dr. Betts was on his knees at the side of the bed, but instead of praying he was blowing away on a rubber sleeping matress.

"No," said Dr. Betts, "I'm not praying now, but the next time I come on a trek like this I won't forget the pump that goes with this mattress."

Private Holds That Line As Bride and Pals Cheer

SAN DIEGO.—Cat calls and heckling from a long line of impatient soldiers, waiting to use a Camp Calton pay telephone, turned into cheers for Private Robert P. Kromeit.

He set a new high for army pay-as-you-go phone calls at the San Diego camp by talking for 21 minutes to South Bend, Ind.

Kromeit, a bridegroom of less than three months, was celebrating his wife's birthday by talking to her.

Before he finished, he put 69 quarters and three nickels in the slot.

Said Kromeit, emerging from the booth with a sweaty brow and a sublime expression:

"It sure was worth it!"

Bible Published in 12 More Tongues in Year

NEW YORK.—The Bible was published in 12 new languages last year, bringing to 1,051 the number of tongues in which some part of the scripture has been printed. The American Bible society said the languages were Zuni (New Mexico) Indian and dialects of Africa, Burma, Palestine and Ecuador.

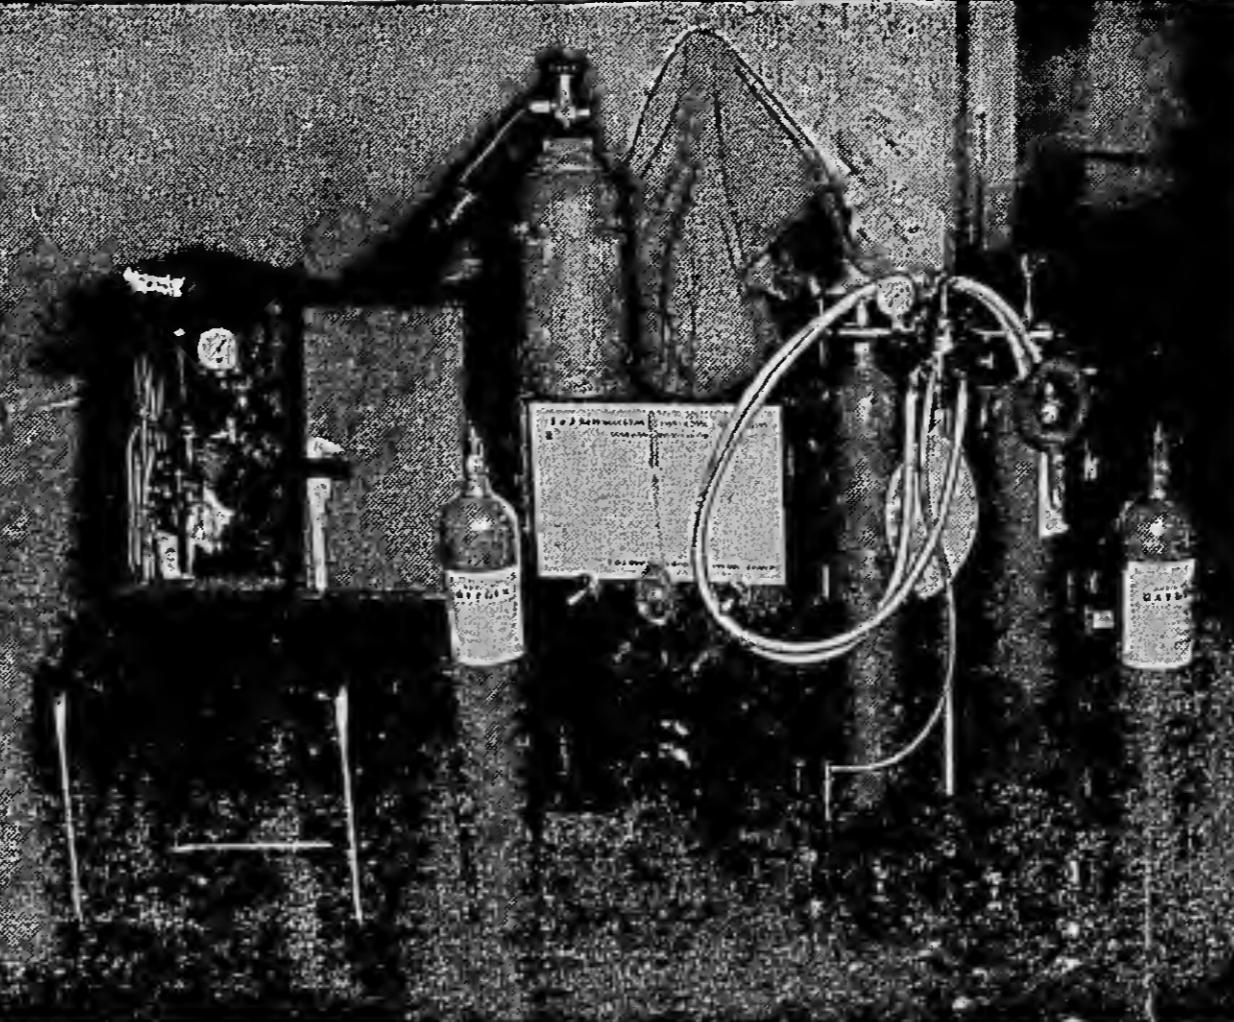

Players May Rent Clubs At St. Louis Golf Course

ST. LOUIS.—The city's parks and recreation department has inaugurated a plan to really make gold the "poor man's game."

Players may rent a set of golf clubs for 15 cents a day at two city-operated golf courses. No deposit is necessary. The set consists of five clubs, a bag and three used golf balls.

There's one rub though—a charge of 10 for each ball lost.

INCREASE EFFICIENCY OF RESCUE SQUAD

• Pucker Photo

Acquisition of the two most modern types of inhalators by the Antioch Rescue squad through purchases authorized by the board of directors will enable the squad to extend relief to persons afflicted with severe heart attacks, double pneumonia and in similar cases where the respiratory functions are weak. The inhalator shown at the left, designated as the "E & J," will also be of

much value in treatment of persons who are near death from drowning. The other, known as the "S.O.S.," will be invaluable in sustaining life in persons who are suffering from ailments which make breathing difficult. Funds for the purchase of this equipment were raised in the sale of tickets for the dance sponsored last week by the squad.

LAKE VILLA

Lake Villa Community Church

W. MacArthur, Pastor

Sunday School—10:00 A. M.

Worship Service—11:00 A. M.

The Ladies' Aid Society will be entertained by Mrs. William Weber at a one o'clock buffet luncheon at her home on Wednesday, Sept. 17, and all members are expected to be present. The cash cards will be turned in at this time.

Miss Bojan Hamlin left Thursday to take up her teaching duties at Radcliffe college in Massachusetts. Her work does not begin for a week or so, but she will visit friends for a few days.

Mr. and Mrs. Carl Seeger returned last week from a very pleasant visit with their daughter, Mrs. Bailey and family in Cleveland, Ohio.

Mr. and Mrs. Louis Galiger have moved from the McCredie house east of town to their new home in Libertyville.

Mrs. Anna Pierce of Chicago is spending a few weeks with her nieces, Mrs. Frank Hamlin and Mrs. Ballenger.

The Maplewood Avenue Baptist church men's group will be guests of the Community church and provide special music at the worship service at 11 o'clock.

The work of laying up the brick for the new fire station has begun and will go on as rapidly as men can be secured to do the work. Stone will also be used in its construction and will provide a fine appearance.

The G. P. Manzer, Al Boehm, Carl Wallner, Lester Hamlin, Paul Avery, Sr., and Charles Hamlin families enjoyed a family picnic at Fox River park last Sunday afternoon and others from Antioch, Waukegan and Elkhorn were present.

Mr. and Mrs. Harry Olson returned the first of the week from a very pleasant auto trip into Minnesota, North Dakota and into Canada. They found several detours because of the floods, but had no trouble in making the trip.

Mr. and Mrs. Charles Simon have moved from the Manzer cottage to the Gleason cottage on Bennett avenue and the Tanner family has moved from the Bartlett cottage to the Manzer cottage.

Mr. and Mrs. Harvey Meyer have remodeled the cottage recently purchased of the Johnson family north of the school house and are nicely settled there.

Harvey Boecky has been a patient at St. Therese hospital since he broke both bones in the lower arm when he fell down the stairs in his home.

Miss Grace McGlashan was honored at a bridal shower given by Mrs. Earl Hucker at her cottage at Petite lake last week. Her marriage to Cecil Anderson will take place soon.

Mrs. Henry Cable entertained her Birthday club at her home south of town Monday afternoon and the birthday of Mrs. Will Fish was celebrated. She was presented with a tablecloth as a remembrance.

Mrs. Mary Miller, who has been with her daughter in St. Louis for several months, has returned to her home here with her son and wife, Mr. and Mrs. Grant Miller.

Mr. and Mrs. B. J. Hooper were Chicago visitors on Tuesday.

MILLBURN

Glenn Strang began his second year in the Presbyterian Theological seminary in Chicago Monday.

Mr. and Mrs. W. M. Bonner and sons, Mr. and Mrs. Gordon Bonner and family, also Mr. and Mrs. Robert Bonner and sons of Kansaville, Wis., and Miss Jean Bonner of Lake Forest attended the annual picnic and get-together of Murrie relatives held at

L. H. FREEMAN & SON, Auctioneers, Phone 118 or 122 Hebron, Ill.

The undersigned having decided to quit farming will sell at public auction on the farm known as the Old Riemer Farm, located 1/2 mile south of Twin Lakes on County Trunk Z; 4 miles northeast of Richmond, and 3 1/2 miles west of Wilmot, 6 miles northeast of Genoa City, Wis., on

Wednesday, Sept 17

commencing at 10 o'clock sharp, the following described property:

107 Head of Livestock

21 HOLSTEIN MILK COWS—Some are fresh, balance springing and milking; one 2-year-old heifer; one 1

New Officers Installed by Legion and Auxiliary

Top row—In gallant sergeant-at-arms Mrs. Chris Mortenson; Mrs. Anton Johnson sergeant-at-arms; Mrs. S. Beyer Nelson, Treasurer; Mrs. W. W. Ward, secretary. Bottom row—Mrs. Thomas Borne, first vice-president; Mrs. Frank Harden, president; Mrs. Almond Thurlwell, installing officer; Mrs. L. John Zimmerman, past president; Mrs. Earl James Hay, chaplain.

Top row—John L. Horan, adjutant and service officer; Douglas Gatchel, Tenth District commander; Francis E. Phelan, Dept. Senior vice-commander; George Hockbaum, past district commander of Lake Co., Ind.; Dr. E. J. Hays, finance officer. Bottom row—Lester Heath, Junior vice-commander; Harry Messing, chaplain; William S. Phillips, senior vice-commander; Roman Vos, commander; Milton Parks, sergeant-at-arms.

DONNA MARIE GIBBS HAS FIRST BIRTHDAY

Donna Marie, daughter of Mr. and Mrs. Donald Gibbs, Spafford street, celebrated her first birthday anniversary Thursday with a party for ten of her little friends. A birthday cake and ice cream were served and she received many gifts.

C. W. FREEMANS, FORMERLY OF ANTIQO, WILL HAVE GOLDEN WEDDING

Their many Antioch friends are planning to send messages of greeting to the Rev. and Mrs. C. W. Freeman, who will observe their golden wedding anniversary on Tuesday, Sept. 30, at Harrisburg, Ill., where they now reside.

Their marriage 50 years ago took place at Webster school, where the then Mary Heath had been a pupil, and where Freeman taught before being called to Antioch in 1887 to teach the 78-pupil school and preach at the Antioch Christian church.

Mr. Freeman, who is now 82 and has retired from the active ministry, recalls that during the course of his long career he has conducted 80 revival meetings and served as pastor to 45 churches, for periods of from one to five or more years.

In a recent letter to the Antioch News he says, in part, "I have many photos of dear friends at Antioch and

occasionally receive a letter or card from some of my old friends."

Guests from Waukegan, Salem, Russell and Grayslake were entertained by the Royal Neighbors at a meeting Wednesday night in the Odd Fellows hall.

Mr. and Mrs. Robert King, who had planned on spending their vacation in northern Wisconsin, were obliged to return Tuesday because of the rainy weather. They expect to spend the remainder of their vacation elsewhere.

The first birthday anniversary of baby Carol McGlynn was observed with a family party today.

The John Steitz of Bluff lake are entertaining a few of their friends today at a party in honor of the second birthday anniversary of their little son.

Mrs. John Lee Robertson (Marjorie Lynn) is visiting at Cedar Crest Farm now. She will return to her home in Des Moines, Ia., next week.

William Drezel of Los Angeles, Calif., has been a guest of Mr. and Mrs. Rudy Strametz, Grass Lake.

Petroleum

Petroleum has been broken into 55 constituents.

Dogs Sense Air-Raids

In the days when Madrid was being bombed or rubble heap, air-raid warnings were sounded according to the dogs. Soon after the beginning of the siege it was discovered that, a full half-hour before the farthest outposts had any warning of an approaching raid, practically every dog in the city howled, trembled and barked. As the dogs were never wrong, the air-raid warning were regularly sounded according to their actions. This gave the people an extra half-hour's leeway.

Keen Eyes
The steel industry says: A steel company employee threaded 700 steel hair spring wires, each less than one thousandth of an inch in diameter, through the eye of a small needle.

Children to Poor Parents

It is estimated that more than 1,100,000 births occur each year in families whose total annual income is less than \$1,000, or who are on relief.

Lubricating Oil Improves

Lubricating oil improved from an efficiency index of 100 in 1929 to 185 in 1938.

Uses Most Wiping Rags

The largest user of wiping rags is the United States navy, followed by the army and air service, railroad and bus transportation companies, service stations, municipalities, garages, machine and paint shops and others. One of the biggest individual users of wiping rags and towels in southern California now are the airplane factories. Douglas Aircraft, for example, recently bought 100,000 shop towels and 10,000 pounds of mill ends from a Los Angeles rental plant. The shop towels were dyed blue, the hand towels green.

Hard Cider for Cold

As a remedy for colds it was formerly quite the thing to take a mug of hard cider and sprinkle it liberally with cayenne pepper. Then a stove poker that had been heated red hot was thrust into the mug causing it to boil and foam. This beverage was quaffed as soon as the poker was taken out. It made such an acceptable remedy that on many a New England farm it is served today although not necessarily for colds but as a most heartening drink.

Independent Stores Gain

Independent stores have gained on chain stores in the past five years, according to the census. Ninety-two per cent of all retail stores are independent and they do 74.7 per cent of the total business, compared with 73.3 per cent in 1935.

Profused Blooming Flower

The tail of Cunningham's comet is estimated to be 1,600,000 miles long.

Double Sneezers

Dr. Milton Hyland Erickson, director of psychiatric research at Eloise hospital in Michigan, observed a young woman who, when she sneezed, nearly always sneezed twice in rapid succession. After one sneeze she waited for the second and if it did not come felt "a distressing sense of incompleteness." Checking the sneeze behavior of the woman's mother, he ran into another double-sneeze pattern. When a granddaughter was born, Dr. Erickson kept careful record of her sneezing, found three generations of double sneezers. In his report in the current Journal of Genetic Psychology, he concluded: "Variations in the (sneeze) pattern may be inherited."

Independent Stores Gain

Independent stores have gained on chain stores in the past five years, according to the census. Ninety-two per cent of all retail stores are independent and they do 74.7 per cent of the total business, compared with 73.3 per cent in 1935.

Yesterdays

32 YEARS AGO

Sept. 10, 1903
Strayed—From my premises on Friday night, Sept. 4, a roan horse with white star on forehead and one white hind foot. Information can be phoned to W. T. Hill's drug store in Antioch, Sol La Plant.

The good old days—A woman in a street car will open a satchel and take out a purse, close the satchel and open the purse, take out a dime and close the purse, open the satchel and put in the dime, close the satchel and lock both ends. Then she will give the dime to the conductor who will give her a nickel back. Then she will open the satchel and take out the purse, close the satchel and open the purse, put in the nickel and close the purse, open the satchel and put in the purse, close the satchel and lock both ends. Then she will feel to see if her hair is all right. (Ed. note)—The girls must not have had much spending money in those days, judging by the care they took of it.)

At a meeting of the quarterly conference held at the Methodist church last Monday, it was requested that the presiding elder use his office with the Bishop of the Rock River Conference to have Rev. J. E. Aiken returned to Antioch for another year. Mr. Aiken has now been the pastor for four years. Officers and committee members were elected including D. A. Williams, W. S. Westlake, Dr. Joseph Karr, J. C. James, Jr., Dr. E. H. Ames, W. F. Ziegler, Anna L. Karr, Nettie Welch, Lucinda Cribb, John Welch, John McDougall, Mrs. Mary McDougall, Mrs. Addie Drury, Mrs. May Labdon, Annes Peterson, Mrs. Bartlett, Miss Lillian Watson, Ethel Thayer, Watie Ames, Mrs. D. A. Williams, Carrie Hoyserad, Louis Savage, Mrs. Johnnott, Mrs. Lillie Burnett, Mrs. C. Barthell, Mrs. Swartz, Ella Ames, Mrs. Nellie Ziegler, Mrs. Ferris, Fannie Willif, Lottie Barthell, Mrs. Nettie Mack.

Our Washington Letter—The Alaskan boundary commission is now in session in London.

Motor cars we are assured have come to stay; they have created a new industry and a new source of pleasure.

Sounds like today—General Miles, in his last official statement, says: "There could easily be mobilized in our country at least ten times as many mounted men, many of whom have had military service, as could be landed on our shores by any government or governments within a reasonable time."

Sir Thomas Lipton says he has given up any hope of ever lifting the American Cup.

22 YEARS AGO

Sept. 11, 1919
The Ladies' Aid of the M. E. church gave a reception in honor of the teachers of both the High school and the grammar school, at the church Tuesday evening. The faculty at the High school is composed of Mr. Oshorn, principal, Miss Smith, Miss Brand, Miss Berwach and Miss Johnson. At the grammar school the instructors are Mr. McTaggart, Principal, Mrs. Garland, Miss McNamara and Miss Wiley.

Practically all of Lake county was benefited by the rain of Tuesday night. It is the belief of many that this is the longest drought ever experienced in Lake county.

General Pershing returned to this country yesterday, aboard the Leviathan.

Mr. Marcus Samuel, who has purchased from the earl of Berkeley for the sum of \$25,000,000 a parcel of the fashionable residential section of London known as Berkeley square, started in business life keeping a little shop in one of the poorest quarters of the British metropolis, where he made and sold for a shilling or two ornamental boxes made of shells from the sea. Later he invested his savings in oil, made money, and started a company called the "Shell," thus identifying his big new venture with his original struggling business.

President's Flag

The President's flag consists of the President's seal in bronze, upon a blue background, with a large white star in each corner.

BLIZZARD COMING

Next winter when the blizzards howl, enjoy uniform, even temperature in every room. Combustioner Automatic Coal Heater is regulated by the thermostat. It is clean, low-cost heat.

Combustioner AUTOMATIC COAL BURNER

The only stoker with the Breathing Fuel Bed, Automatic Respirator and Patented Transmission, which means more heat for your money. Phone or write for our Special Summer Plan.

Doctor Tells How Cigarette Saved His Life in War

Dugout Demolished by Shell While He Was Absent Begging a Fag.

MILWAUKEE, WIS.—Smoking cigarettes is more than a habit with Dr. M. E. Gabor. It's a ritual performed with the whole-hearted enjoyment of a person who appreciates the full meaning of life because he once came so close to losing it. Dr. Gabor's joy in living is closely attached to smoking, for he credits his being alive to a cigarette.

This genial, middle-aged doctor, who practices in Shorewood, a Milwaukee suburb, was reared in Austria. During the World war he was a lieutenant in the medical corps of the Austrian imperial army, spending four years on the eastern front. He did what he could to ease the suffering of the wounded and to combat the dread typhus and cholera.

He tells about one afternoon when he could control his craving for cigarettes no longer. He walked half a mile along the shell-torn trenches before finding a friend who gave him one. When he returned to his station his dugout was gone, demolished by a shell. No wonder that cigarette tasted so good.

Lived in the Ukraine.

But war wasn't all hardship. Gabor recalls the happier days spent in Odessa, in the Russian Ukraine, recently the objective of German war planes.

"It's too bad it should be damaged," the doctor said. "The city was so beautiful. It had pretty parks, wonderful beaches and a splendid harbor."

Gabor was sent to Odessa in May, 1918, with 100,000 Austrian soldiers who were summoned to help the White Russians in their fight against the Bolsheviks.

Except for an occasional sniper, Odessa was the only peaceful spot in the embattled Ukraine. The Austrians occupied all of the available barracks, churches and schools. Although the fight against cholera continued, life was comparatively quiet.

"It was like a holiday for us," the doctor recalled. "We had plenty of food. There was bread from the rich wheat fields of the Ukraine. There was no fighting, and it was just like a picnic."

Troops Grow Restless.

But as the summer months passed, the idle Austrian soldiers tired of the foreign environment. They longed for their homeland.

One morning in October, Gabor was awakened by a soldier with the curt order: "Sir, you are my prisoner." Outside follow soldiers were firing shots into the air and yelling, "Long live the revolution."

It seemed the Austrian soldiers had taken a tip from the Russians and revolted against their officers, who were disarmed and made prisoners. Gabor was locked in a hospital room.

The soldiers relented, however, and offered to call off the mutiny if the officers would lead them back to Austria. The officers were equally eager to return and agreed to the plan.

Gabor returned to his medical studies at Vienna and Prague. He came to Milwaukee in 1929 and has been here ever since except for a sojourn in Vienna for post-graduate work in 1938.

Ammonia Fails to Revive

Her, but a Kiss? Oh, My!

ST. LOUIS.—Deputy Sheriff George Baker witnessed the startling effects of a kiss on a woman who had fainted.

Mrs. Bertha Lyvers, 27 years old, collapsed leaving the courtroom after a hearing on a peace disturbance complaint against her estranged husband, William Lyvers. Baker broke an ammonia capsule under her nose without reviving her. He called an ambulance.

Then, Baker reported, Lyvers, bending over his wife, kissed her. She opened her eyes and slapped him.

Recruiting Marine Almost Enlists Baby in the Navy

PEORIA.—Sgt. Carl E. Hardy has a new one to tell the marines.

New chief marine recruiter here, he was standing the other day in the lobby of a downtown office building. Seeing his trim uniform, a woman entering the lobby, handed him a baby and told him to wait, as she stepped into an elevator. Fifteen minutes later she returned, took the baby, handed Hardy a dime. Almost speechless, he followed, started to protest, only to be asked sharply: "Isn't a dime enough? That's all I ever give any porter."

Tiny Town Really Goes

All Out to Help Win War

WAWOTA, SASK.—This little Saskatchewan community has knocked itself out with its all-out war effort. What likely constitutes a record for all Canada, the district has sent its last available, eligible man to war.

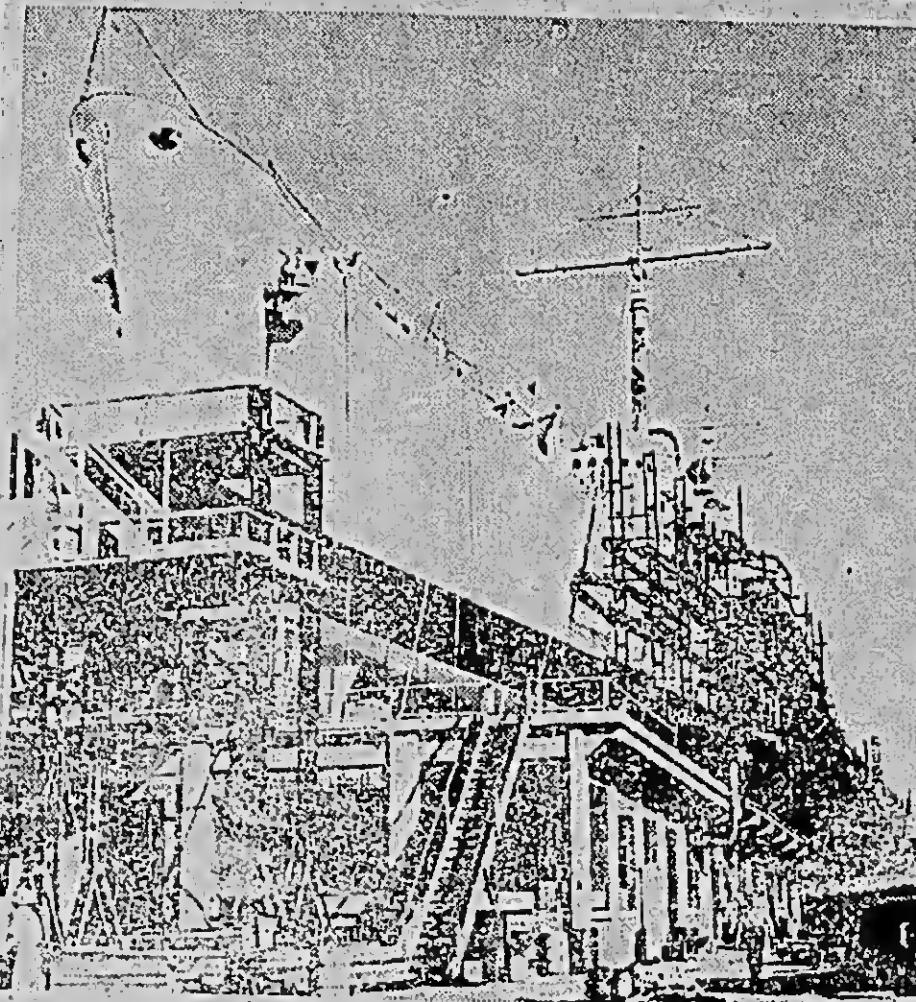

There are no young men able to stand left in Wawota.

The town has a population of 250 and 100 men have left for service. The citizens are doing their bit, too. At a Red Cross carnival they raised \$100 an hour for eight straight hours.

In Unison

U. S. Cruiser Prepared for Launching

The U.S.S. Atlanta is prepared for launching at Federal Shipbuilding yards at Kearny, N. J. Launching was postponed because of recent strike at the yards, but work was completed under navy supervision after the navy took over the yards. The Atlanta is a 6,000-ton cruiser, with a designed speed of more than 38 knots.

Held on Spy Charges

Lucy Boehmle (above) of Maspeth, Queens, N. Y., who pleaded guilty of being connected with an alleged spy plot operating through Spain and Portugal for transmission of American military secrets to Germany. Below: Carl Schaeffer, naturalized American citizen, who was arrested in Miami, Fla., for using the mails to transmit national defense information to Germany.

Reunion in America

Back with his mother, after four years in Norway, is Johan Lie-Nielsen of Boston, six, who made the trip tagged like a piece of baggage. Johan's mother couldn't understand her son as he speaks no English, and she no Norwegian.

Trapshoot Champ

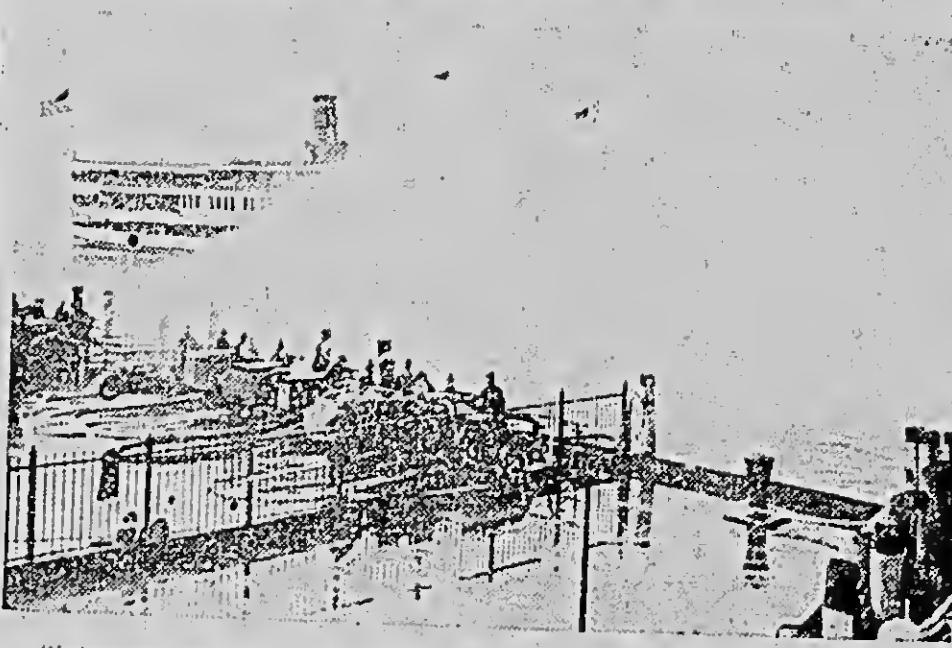

Walter Tihert, of Detroit, grins happily after winning the Grand American Trapshoot handicap first prize of \$1,000 at Vandalia, Ohio. He has been at it only one month.

On Their Toes in the Desert

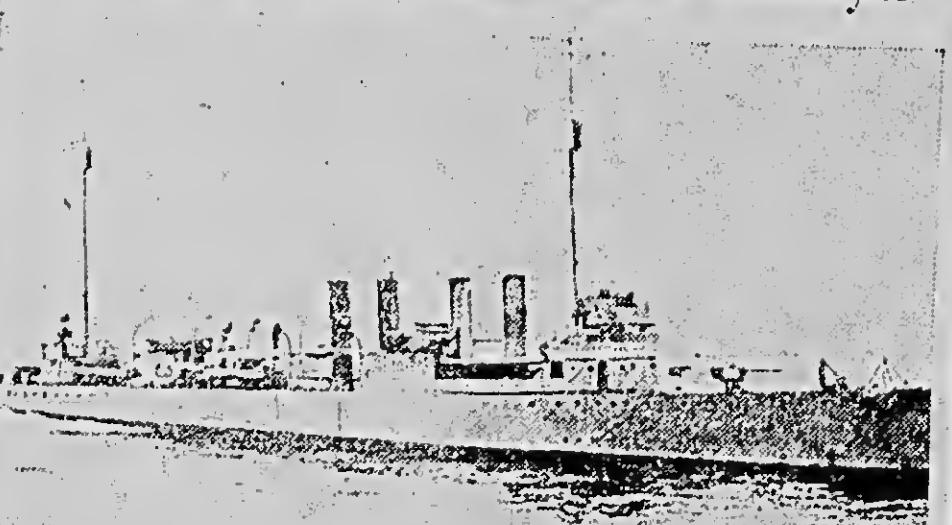

Daylight patrols in the western desert carried out daily by the 60th African infantry brigade quite naturally keeps the unit on its toes, and when the long journey is over those toes need a rest. The waves along the beach have a cooling effect, and shoes are left neatly, military style, on the sand.

A Free Show for New Yorkers

Sleightseers aboard the boat in the background of this photograph got a real free show as city firemen tested out fire pump trailers at Battery park, in New York. The test was given to determine just how much could be expected of the trailers and what they could do in the event of an emergency.

Sister Ship of Attacked U. S. Destroyer

The U.S.S. Roper, shown above, is a sister ship of the U.S.S. Greer, which was attacked by a submarine of unidentified nationality while en route to Iceland with mail. The destroyer escaped the submarine's torpedoes and dropped a depth charge, according to an announcement released by the navy department. The destroyer was not damaged.

Elderly Man vexed by Visits of Huge Stork

PURSLEY, W. VA.—Tom Everly, retired pipeline employee, reported that a large stork has been flying around his home.

"I don't like to have it hanging around," Everly commented. He said the bird nests in a nearby woods. He estimated it was six feet tall and had a wing spread of 10 feet.

Boy, 7 Years Old, Skilled Gymnast

Also Master of Tap, Ballet And Adagio Dancing.

BAKERSFIELD, CALIF.—Donnie Potts, seven years old, Bakersfield, is a skilled gymnast and master of tap, ballet and adagio dancing.

Called the midget man-mountain, muscle mite, juvenile Ajax and the boy Atlas, Donnie has a pocketful of tricks, entertaining an audience with feats of strength, flip-flops, acrobatics and dance routines.

He is a protege of Robert Butler, 17-year-old Bakersfield gymnastics devotee who spotted Donnie as having "unbelievable strength and exceptional muscular co-ordination." Donnie and Butler have been training only two years but already they have won several medals.

The young Hercules is the son of Mr. and Mrs. Russell Potts of Riverview and is in the second grade in public school. He is small in stature but makes up for it in muscles. Donnie weighs 53 pounds and is 44 inches in height. He can hold Butler, who weighs 160 pounds, pickaback.

In Donnie's black-thatched head are thoughts of when he will grow up to be a "big gymnast." Nipups, handstands and backflips are more interesting to him than schoolboy sports like baseball, football and rolling hoops.

Butler said his young partner's best stunt is "pressing" up to a handstand. Donnie can lie on his stomach, throw his legs into the air and raise himself straight up to a handstand. Another feat requiring perfect timing is a one-hand to one-hand overhead balance.

Butler and Donnie have won prizes in the gymnastics competitions at Delano, the Del Mar club in Santa Monica and the Santa Monica Gymnastics carnival.

Granny Flies as Hobby; Talks Father for Ride

ANN ARBOR, MICH.—Lavender and old lace is not for Michigan's 60-year-old "flying grandmother," Mrs. Carl Rufus.

When she returned recently from an 8,000-mile solo flight to the West coast Mrs. Rufus reiterated her contempt of teas, bridge parties and gardening enjoyed by other women of her age.

But perhaps, she says, her two-month trip in her little plane afforded her enough stories and anecdotes to keep her bridge-playing friends frightened and jealous until next year, when she plans to fly to New York and Maine.

A wife of a University of Michigan professor, Mrs. Rufus began flying almost three years ago.

"Accidents, close calls—phew!" she says. "Just a few mishaps. I got a flat tire from Texas cactus plants and I chipped my propeller in southern California."

Mrs. Rufus is the only flier of the family, but she often takes other members—including her 91-year-old father, the Rev. G. C. Squire—along as passengers. She has three children and three grandchildren, whom she likes to frighten with admitted exaggerations of her exploits in the air.

Aircraft Foreman Jailed For Stealing Aluminum

BUFFALO.—Bernard Cwiklinski, 33, a foundry foreman for the Bell Aircraft corporation, received a three-month penitentiary sentence for taking four aluminum bars from the plant.

"In another country you might be shot for this," City Judge Charles T. Yeager told him.

"Your greatest offense was in undermining the safety of the government, stealing aluminum intended for airplane production at a time when both are so vital to our national defense."

Cwiklinski, charged with petit larceny, admitted taking the bars with the intention of selling them, and added:

"I just had a yen for whisky."

The bars, each weighing about 15 pounds and valued at \$10, were recovered.

Gets Spanish War Check After Waiting 40 Years

FENVILLE, MICH.—It took more than 40 years but A. V. Brown at last has been paid for part of his services in the Spanish-American war.

Brown is in receipt of a check for \$8.40 from the adjutant general of Arkansas "in full payment for services in the Spanish-American war."

Although the war ended in 1900, Brown recalls that Company L, 1st Arkansas volunteer infantry, was encamped for a week before being mustered into service. The \$8.40 is the belated payment for that week in camp, he said.

FARM TOPICS

THIN OUT HERDS TO CUSHION DROP

Suggest Meat Producers Insure Future.

By PAUL L. MALONEY
(Extension Service, University of Nevada Agricultural Service.)

Culling herds of all undesirable cattle and sheep is excellent in insurance against the time when there may be less demand for meat products.

By selling off the undesirable animals now, the livestock producer can realize good prices, and when more cattle are needed, they should be bred through the introduction of high quality sires.

The U. S. bureau of agricultural economics reports that there is an increase of more than 2,000,000 head of cattle and that the index price of beef is 125 per cent.

The question naturally arises, How can the livestock man protect himself from these extremes in the cycle of low and high prices and large and small numbers of stock? How can he prevent the calamity which has followed the rise in price and subsequent increase in numbers?

By vigorously culling the herds at this time producers will be enabled to put their financial houses in order, to get rid of their mortgages and find themselves with surplus funds.

All thinking stockmen who have gone through extremes in numbers of livestock and price cycles will advocate a straightening out of the cycle by knocking a little off the peaks and boosting the bottom of the curve. This will prevent, to a great extent, the confusion which exists after every break in prices when there is a surplus of stock on hand.

While it is natural for stockmen to desire to keep every heifer and every cow which will produce him a calf to sell at the high prices, yet in the operation of any successful business enterprise it often requires the careful analysis of the past experience in order to make the best use of the present and future of the business.

During the first World war livestock prices skyrocketed to a very high figure; these prices encouraged the producer to expand his operations and at the same time encouraged the consumers to substitute many other cheaper, yet less desirable, foods for meat.

AGRICULTURE IN INDUSTRY

By Florence C. Weed

(This is one of a series of articles showing how farm products are finding an important market in industry.)

Cellulose for Plastics

Hairbrush bristles from wood, buttons from milk, fountain pens from soybeans. These are commonplace articles in everyday use, chosen from the 10,000 or more articles being made from plastics.

The word "plastic" describes a new chemical process whereby certain farm products are ground to a powder, mixed with chemicals and color, then hardened in molds into the shape of articles in everyday use. In this material, the cold penetrates each molecule and does not have to be surface finished.

You have seen these objects many times—pencils, ash trays, toy animals, buckles and inexpensive jewelry. Sycamore plastics make standard parts of Ford automobiles such as door and window frames, horn buttons, light switch levers. From wood and cotton plastics come colorful handles for tools, radio cases, lamp bases and telephone receiver sets.

Wood, cotton, soybean and casein plastics are being commercially produced, and a pilot plant in Louisiana is making cheap plastics from sugar cane on a small scale. Still in the experimental stage are plastics made from corn, known as zein. In Maine, experiments are under way to develop potato plastics which resemble clear glass. Other good possibilities which have not been developed are corn stalks and grain dry feathers.

While plastics are still in the gadget stage, research has started to adapt them to automobile and airplane bodies and housing materials. Sheets of proper strength and color have been perfected and are waiting for someone to find a practical scheme for fastening the sections together.

Agricultural Notes

Gathering eggs frequently will reduce the number of dirty eggs.

Cooling eggs as soon as they are gathered, to as near 50 degrees as possible, will prevent spoilage.

Top-dressing haylands with manure or fertilizer after the first cutting will help produce a good crop of second cutting hay.

Berlin Is Using Trees as Shield

Planted Atop Buildings to Fool R. A. F., Says U. S. Minister to Greece.

NEW YORK.—Extensive camouflaging is being carried out in Berlin, with trees planted atop conspicuous buildings to shield them from the view of British bombers, Lincoln MacVeagh, United States minister to Greece, reported on his arrival here recently.

Describing the safeguards being taken in the German capital, Mr. MacVeagh declared:

"Evidently they are expecting something big. Along the bicycle roads to Potsdam and such places everybody uses bicycles and the track is as wide as a room. The tracks, which were white, are now being painted green."

"On the outside of Berlin the ponds and sheets of water are being covered with reeds so that they will look green. On the tops of conspicuous buildings like the stadium, where they hold the flower show, they are planting live trees."

Lack of War Enthusiasm.

Referring to the feelings of the natives of Berlin, Mr. MacVeagh said:

"On the Sunday that the Russian war broke out there was no enthusiasm shown by the people. They apparently had expected Russia to come to some sort of agreement at the time Turkey did. But when the Russians did not the Germans expected that war would come."

Mr. MacVeagh and his wife and daughter were in Athens while the Nazis made ready for their invasion of Crete. Preparations for this campaign began immediately after Greece fell, he said. The MacVeaghs left Athens on June 5, went to Berlin, proceeded to Basle, Switzerland, from the German capital, continued to Barcelona and then to Lisbon. They made the overland journey by train and automobile.

He described the food situation in Greece as "a progression toward famine." Disruption of communications also had upset the country, he added.

Characterizing the Greek spirit, even in defeat, as "magnificent," he declared:

"I'm proud of that country. They are not whimpering a bit. They are defeated but unconquered."

Greeks Cheer R.A.F.

During British air raids over Greece at night, he disclosed, the Greek people cheered the R.A.F. from streets and rooftops, despite Nazi admonitions that such demonstrations would lead to arrest.

Another passenger, Michael Gut, United States citizen, who worked in Gdynia, Poland, since 1922, disclosed that that port was used as a naval base by the Nazis. He said he had seen 40 German submarines there six months ago, and added that the German liners Deutschland and Cap Arcona were among the ships moored in the harbor.

Henry Kahn, 80-year-old United States citizen, born in Alsace-Lorraine, who is a Chevalier of the French Legion of Honor, and a veteran of the Franco-Prussian war of 1870, arrived with Mrs. Kahn. He predicted that "within a very few months you'll see blood running in the streets of Paris, as the French people rise in revolt."

Coeds Display Driving Talent for Army Work

HARTFORD, CONN.—Connecticut coeds soon may be driving army trucks—bearing out a prediction of Motor Vehicles Commissioner Michael A. Connor that "properly trained women could safely and efficiently operate heavy army transport trucks ranging in weights up to 2½ tons."

Connor's conclusion was formed after an experiment conducted at New Britain Teachers college. Women students who had completed a safe driving course conducted by the motor vehicles department took part in the test.

"The general performance was such," said Commissioner Connor, "that we were satisfied carefully selected women, properly trained, could well substitute for men in the operation of these types of army vehicles."

Army Gets Double Milk World War Men Drank

WASHINGTON.—The soldier in the American army today is getting twice as much milk as his World War predecessor. The war department estimates that his rations include a pint of milk daily.

The daily pint usually is divided equally between milk served in natural form and milk used in cooking or served in processed foods such as cheese.

Motor Libraries Now Take Books to Soldiers

WASHINGTON.—A corps of trained librarians, using motorized units of the WPA are supplying the army with reading matter.

Soldiers are using more of their leisure time to read than in previous years. The increased demand for reading material forced the army to ask for assistance from the WPA.

The WPA assistant commissioner said that there are 1,000 WPA librarians aiding the army.

Iceland Is Key to Weather Forecasts

Reports Jealously Guarded By Great Britain.

CHICAGO.—United States' occupation of Iceland isn't going to help the weather man a bit—despite the fact that the rocky island is the key point for long range forecasting for the entire North American coastline.

Dr. C. G. Rossby, assistant chief of research from the Washington weather bureau, points out that Britain has been keeping reports from Iceland's weather stations "a jealously guarded secret" since occupation of the island.

And Britain would be foolhardy not to do so, says Rossby. "The reason is simple. Icelandic reports would aid in plotting long range forecasts for eastern America, but they are of vital importance for day to day European forecasts."

"When I worked for Sweden's weather bureau," he said, "Icelandic conditions were the first thing we'd look for on the chart in making up our forecasts."

Rossby, who will remain on leave of absence from his Washington post until September to serve as director of the University of Chicago's new institute of meteorology, is the leading exponent of the air mass theory forecasting in this country. He believes that within the next 10 or 15 years the U. S. bureau will be able to extend accurate long range forecasting to 30 days or so.

Long range forecasting, he explained, is concerned—not with predicting each day's weather—but with assaying temperature and rainfall anomalies that will occur in each area.

"The five-day reports now are being used for agricultural and various industrial purposes, and eventually, when these and other uses become more widespread, man may become so adjusted to this long-range forecasting that he will consider it a necessity."

Hobby Yields 200 Ingots of Aluminum for Defense

SUFFERN, N. Y.—A mysterious stranger with a mysterious hobby drove to the community aluminum bin in this village and deposited 70 pounds of pure aluminum molded into about 200 cakes the size of muffins.

The stranger, who was about 30 years old, gave his name as Edward Strycko of Suffern, and said his hobby for the last 10 years had been to collect old aluminum and melt it down in his furnace into small ingots. When the nation-wide drive for aluminum opened he decided to contribute his hobby to national defense.

However, when village officials decided to inquire further into his hobby, they were unable to find any trace of Strycko. He is not listed on the tax rolls of the village or of Ramapo township in the outlying areas and he seemed to be unknown in Suffern.

Parachutist Strategy

Dates From Franklin

WASHINGTON, D. C.—Benjamin Franklin had the idea of parachute troops back in 1783.

"The Command and General Staff School Military Review" prints in its current issue the following excerpt from volume nine of Franklin's writings:

"Five thousand balloons, capable of raising two men each, could not cost more than five ships of the line; and where is the prince who can afford so to cover his country with troops for its defense as that 10,000 men descending from the clouds might not in many places do an infinite deal of mischief before a force could be brought together to repel them?"

Name English Woman, 33, As Only Female General

LONDON.—Slim, 33-year-old Mrs. Jean Knox took over control of the Women's Auxiliary Territorial service branch of the army.

With the rank of major general, she sits at a big desk in the war office. The mother of a 14-year-old girl and wife of a Royal Air force squadron leader, she is the youngest general in the British army and the only woman general.

Elk Forget Manners to Woo My Lady Nicotine

SOUTH BEND, WASH.—Game Protector Josh Allen would be happier if his herd of North River elk hadn't taken up with Lady Nicotine.

Not that he minds their moral delinquency, he said—but they've become a traffic hazard. Allen said that elk now were in the habit of going on to the highway at all hours to "mooch" cigarettes from motorists.

Rain Dancers Perform, Show Rained Out Twice

SALT LAKE CITY.—The Whiteclouds—Tony, Felipe and several smaller Whiteclouds—were brought from a New Mexico Indian reservation to appear on the Utah Pioneer days program.

They presented the "rain dance" Friday. That night it rained, washing out the evening events. It rained Saturday too.

AMAZE A MINUTE SCIENTIFACTS ~ BY ARNOLD

Grafted Animal Pupil

Surgeons grafted pupils from the eye of an animal to the optic nerve of a boy who was born without pupils 25 years ago. The boy, Frank Bentz, since has been graduated from the University of Wisconsin law school.

Molybdenum

More than 7,000,000 pounds of molybdenum were recovered from copper ores and concentrates produced in 49 U. S. mines in 1939, according to census bureau.

Eavesdropper

An eavesdropper is one who listens secretly to a private conversation. The ground on which the water drops from the roof or eaves of a house is called the eavesdrop, hence a snooper is one that stands in that space and hears, through the window or door, conversation that is not meant for him.

Bacon and Eggs
According to the statistics of railway dining cars, eggs and bacon is one of the most popular dishes in Scotland.

Cracking Cocoon
The shell of a fresh coconut can be cracked more easily if the nut is put into a hot oven a few minutes.

Keep Up WITH EVENTS
EVERY WEEK from
THE NATION'S CAPITAL

Read PATHFINDER
PATHFINDER brings to you in words and pictures the drama of events fresh from Washington, D. C., the nation's capital, today the world's news center. News, features, and facts, events boiled down into 20 interesting, inspiring departments. Complete, unbiased, non-partisan, non-sectarian, dependable—gives both sides. Improved new features. World's oldest, most-read news weekly at one-fourth the cost of others. Furnishes clean, reliable reading for the entire family.

This Newspaper & PATHFINDER BOTH one year Only \$1.85

Ends Fall and Spring Furnace Fire-Building!

Takes Special Low Gas-Heating Rate!

only \$49.50
Ready for use . . . including automatic thermostat control. Small carrying charge added for deferred payments.

New!

Automatic Detachable Gas House-Heater

Fits easily into door of warm air furnace or hot water boiler . . . does not interfere with regular Winter furnace operation.

Hundreds now in use!

Now—enjoy automatic heat when it counts the most and costs the least! Counts the most—because Fall days with changeable weather take lots of furnace fusing if you don't have automatic heat. Even if you do watch the weather closely and get out the shovel every time the mercury drops, chances are your house is too cold in the morning and too hot in the afternoon. That's the beauty of this automatic gas house-heater—it takes the work off your hands, and does a perfect job.

And don't forget about costs—Fall and Spring are the seasons when automatic heat costs the least! It takes a lot of extra fuel to build a new furnace fire every few days. The automatic gas house-heater saves money, because it doesn't waste fuel. And besides that . . . you get a special low house heating gas rate!

Get the complete facts on this fine new work-saver now—before those costly hard-to-heat Autumn days are here. Write, phone or come in to your Public Service office.

PUBLIC SERVICE COMPANY
OF NORTHERN ILLINOIS

Let it do all the work. Set the thermostat at the house temperature you like best—thetha for it.

Delinquent Tax List

Town of Antioch

STATE OF ILLINOIS,
COUNTY OF LAKE, ss

Public notice is hereby given that I, Garfield R. Leaf, County Treasurer and ex-officio county collector of Lake County, in the State aforesaid, will apply to the County Court of said County, on Monday, the 29th day of September, A. D. 1941, for judgment against the lands and lots mentioned, and described in the following list of delinquent lands and lots for the general taxes and personal property tax attached thereto, for the years 1910, 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, 1934, 1935, 1936, 1937, 1938, 1939, and 1940, together with interest, penalties and costs due severally thereon, and together with any further judgment for delinquent taxes, penalties, interest and costs which may be recovered against a portion of the lands and lots hereinafter described, in the proceeding now pending in the County Court of Lake County, Illinois, as General No. 80-11, together with penalties, interest and costs due severally thereon and for special taxes and special assessments due for the years 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, 1934, 1935, 1936, 1937, 1938, 1939, 1940, and 1941, together with interest, penalties and costs due severally thereon, and for an order to sell said lands and lots for the satisfaction thereof. Public notice is also hereby given that on the third Monday of October, to-wit: on the 20th day of October, A. D. 1941, all of the lands and lots, for the sale of which an order shall be made, will be exposed to public sale in the County Court Room, in the building where said County Court is held in said County in the Court House at Waukegan, in the said county for the amount of taxes, special taxes, special assessments, interest, penalties and costs due severally thereon, except such as shall have been paid at said time of sale. Said sale shall commence at 9 o'clock A. M. Central Standard Time, on the 20th day of October and to continue from day to day, until the same shall be completed; and if for any cause such judgment shall not be rendered on the said 29th day of September, then such sale will be made on the third Monday after such judgment shall be rendered commencing at 9 o'clock in the forenoon of such third Monday.

Costs on each tract or description of land 26 cents; on each lot or description of lot 16 cents. Also interest at the rate of 1 per cent per month will be added after June 1st on the First installment and September 1st on the second installment.

Choctaws Sue For 4 Million

Mississippi Files a Petition Charging Government With Broken Faith.

JACKSON, MISS. — Some pale-faces high in the government of Mississippi have taken action in Washington to claim \$4,000,000 for the state's Choctaw Indians. Rep. Ross Collins and Attorney

General Greek L. Rice say that amount is due the Indians from the federal government for the breaking of treaty obligations and "the gross wrongs of a century ago." Representative Collins drafted a

Representative Collins drafted a bill which would confer jurisdiction of the court of claims to determine the claims. The attorney general has filed a brief in behalf of the bill. Some of the claims are to compensate for the government's failure to grant the Choctaws the lands to which they were entitled by the Treaty of Dancing Rabbit Creek, signed on September 27, 1830. Other claims involve the scrip and interest in property of the Choctaw nation said to be due the Indians under several acts of congress and treaties between the United States and the Choctaw nation.

Broken Pledges Alleged

Full of bitter and authenticated reports of broken pledges, the attorney general's brief charges officials with betrayals of these "illiterate and trustful people" who "depended largely upon the white man for a guidance in their relation to each other.

Repeatedly—the brief charges—the Choctaws were assured in formal treaties they would never again be asked to give up more of their lands, that they could govern themselves without molestation from the state. The treaty signed at Doak's Stand (which contained such promises) pledged that "the agreement will endure as long as the waters run, the trees grow and the sun shines."

Historical documents are quoted in the brief to show coercion of the Choctaws into signing the Treaty of Dancing Rabbit Creek in Noxubee county and subsequent violation of the pact by the whites.

One of the treaty's clauses provided that the United States would supervise removal of the Indians to their new homes.

Story of Starvation Told.

The brief quotes eyewitness accounts of suffering, starvation and death among the Choctaws trying to reach their new western homes. It charges the government with "shameful negligence" in its obligation to transport the Indians from Mississippi.

Who would get the claim money if the action is successful? It would go to the "Choctaws of the State of Mississippi," who are defined by the bill to include "reserves under the Treaty of September 27, 1830 (Treaty of Dancing Rabbit Creek), and their descendants; those persons who on July 1, 1902, were residents in Mississippi, Alabama and Louisiana, having not less than one-eighth Choctaw Indian blood, and their descendants, and such persons as were hereafter identified on any approved roll of Mississippi Choctaws and their descendants, and shall not include any persons who were enrolled on the final citizenship rolls of the Choctaw nation in Oklahoma."

Referring to legal technicalities advanced by the U. S. attorney general, the brief said, "This is a subject in which cold, legal rule and definitions of rights, according to American legal standards, should not prevail, but it is the high moral duty imposed upon the United States government to do justice to these Choctaw Indians."

Colorado Points Proudly

To 49 14,000-Ft. Peaks

DENVER.—With Switzerland becoming inaccessible to tourists Colorado enthusiasts are quick to point out that the Rocky mountain state has more high peaks than the European country, claims.

Switzerland has eight peaks above the 14,000-foot mark—Colorado has six times as many, 49.

In area Colorado is seven times larger than Switzerland. Although Pikes peak, elevation 14,100, is Colorado's most famous

mountaintop, the state has 26 other peaks that tower above it.

Historic Mill Still Good

Historic Mill Still Good After Working 270 Years

According to tradition, old Murray's mill, near Denton, is 270 years old, and meal from the building was sent to the Continental army at use today.

Music in Factory Speeds Work on Navy Blouses

NEWARK, N. J.—Ballads of the
briny deep and popular tunes help
to speed production of blouses for
Uncle Sam's navy.

and playing of the recorded tunes for the 120 girl workers "is a very nice thing for the girls and for us. It makes them happy, helps them to forget how long the days are, and certainly speeds up production."

FARM TOPICS

CHECK UP DAIRY FEED SUPPLIES

Follow Composition Table For Best Results.

By DR. GEORGE E. TAYLOR
(Extension Dairyman, New Jersey College Of Agriculture, Rutgers University.)

Now is the time for American dairymen to take inventory of their dairy feed supplies. Not only is it wise from their own economic stand point, it's also the patriotic thing to do—patriotic because it is one step toward fulfilling the government's request for a 8 per cent increase in milk production during the national emergency.

By following a more regular feeding schedule, you'll avoid drops in production due to sudden changes in ration. Don't forget that purchased feed will cost more this fall. Check on your supply of corn, oats and barley.

Consult a composition table before buying feed and purchase the kind which supply nutrients at the lowest rate. Sometimes that which is the cheapest per 100 pounds is the most costly in the long run. For example, suppose wheat bran is priced at \$1.54 per 100 pounds, soybean oil meal at \$1.79 per 100 and linseed oil meal at \$1.70 per 100. Wheat bran contains 15 pounds of total protein per 100, soybean oil meal 40 pounds and linseed oil meal 37 pounds, according to the table.

If you divide the pounds of protein into the cost per 100 weight, you'll find that protein in wheat bran—the cheapest per 100 weight—costs 10 cents a pound. In soybean oil meal 4.5 cents a pound and in linseed oil meal 4.0 cents a pound. Thus buying the soybean oil meal and the linseed oil meal—two, for the sake of variety since the cost is approximately the same—dollars will be saved in the long run.

Turkey Industry Is

Expanding Rapidly
New features of the poultry situation include the prospect for heavy production of commercial broilers this winter and next spring, the possibility of a greater cold-storage demand for turkeys this year than last, and a fairly good storage demand for eggs during the period of flush production next spring. The expanded commercial broiler industry now affects the prices of chickens, ducks and turkeys at all times of the year.

There was a time when broilers sold in early spring for two to three times the price of fowl, but now they are practically on a competitive basis. Approximately 100,000,000 commercial broilers are produced annually, and marketed the year 'round. Areas of large production include Arkansas, California, Delaware, Indiana, Maryland, the New England states, and Virginia. The production of ducks also is on expanding and competing industry. Ducks commonly are priced so low that producers complain the only profit is in the sale of the feathers.

Seasonal, of course, has been the expansion of the turkey industry. California this year has replaced Texas as the leading producing state, and Minnesota, with nearly 3,000,000 birds raised this year, is a close runner-up. States producing between 1,000,000 and 2,000,000 turkeys include Ohio, Iowa, Missouri, North Dakota, Nebraska, Virginia, Oklahoma, and Oregon. The 1940 turkey crop of more than 32,000,000 birds was the second largest on record, but the effect of this upon price may be offset by the improved consumer demand.

Simple Test for Egg Freshness Explained

An egg is a sealed package of fine food when it is laid by the hen. It is the only product that Nature gives us that is sealed without the touch of human hands. "However," points out T. T. Brown, extension poultryman of North Carolina State College, "eggs that bring a premium on the market are those that the consumer desires—eggs that are fresh, large, clean, uniform in size and color, and sound in shell."

The State college man suggests a simple home method of determining if eggs are fresh. "Place the eggs in a pan of water," he says, "and the good ones will rest flat on the bottom of the vessel; those that have lost some of their quality will stand on end; and very poor ones will rise somewhat. Those that rise are older or poorly kept."

Electric Help

C. T. Keen, Marshall County, Iowa, hog raiser, keeps litters of different ages separated when out on pasture by the use of temporary electric fences. These divide the field into strips, with one or more houses in each section for shelter.

In this way, robbing of younger suckling pigs is avoided. It makes feeding and watering more of a chore; but later, as the pigs get old enough to hold their own, the fences are removed.

London Considers Rebuilding Plans

New City With Wide Streets Is Aim of Leaders.

LONDON.—The City of London, reputed in legend to be paved with gold, may pass into public ownership.

That old legend sometimes has been proved true. Land-grabbers, speculators, adventurers of all kinds in the city's history have profited by the turnover of land sites.

Because of the speculation in valuable sites, Sir Christopher Wren's great plan to remodel the city of London after it had been destroyed in the great fire in 1666, was wasted.

Land owners claimed the right to build again on the plots they occupied. Speculators sold land at fabulous prices, and the new owners insisted on building there, regardless of Wren's plans.

Now, the City of London has another chance. German bombs have destroyed so much that large-scale rebuilding will be necessary after the war.

And the city corporation is determined that the interests of land-owners shall not interfere this time. They are planning a new London with broad thoroughfares.

They will be lined with trees. Great new buildings will rise on either side of them. The new city is considering a plan to buy all the land on which the city stands—673 acres of it.

First great reconstruction scheme after the war will be near St. Paul's around Newgate street and Cheap-side.

But all the work will be carried out according to a single comprehensive plan which will rid the city of its dingy alleys and twisting lanes and make it instead a modern world capital.

The Royal Institution of British Architects urges that a London planning board should be set up to consider rebuilding plans for the entire metropolitan area.

Oldest Wells Again to Yield Oil for Defense

BRADFORD, PA.—The world's oldest oil field is booming again because of the national defense emergency.

The Pennsylvania oil fields in the northwestern part of the state has come back to life. Rigs once more are lined up along the highways and hundreds of old wells are being cleaned for emergency duty.

The reason for the increased activity here is the tanker shortage, which has resulted in smaller shipments of western crude and refined products and as a consequent comparable scarcity of petroleum products on the eastern seaboard.

Old wells, small producers that formerly were unprofitable to operate under the low prices prevailing previously, are being put back in use with the prospect of better financial returns and the need for their products in the East.

Many of the pumpers who are cleaning and working the renovated wells are old-timers who are returning to the drillings because of the shortage of younger men.

The fields in this district are considered the oldest in the world but virtually were abandoned due to competition from more productive drillings in other parts of the country.

Woman Skipper Keeps Up Family's Sailor Record

BUFFALO, N. Y.—Capt. Daisy M. Godfrey is the only woman in this part of the country licensed to captain any steamship under the 60-ton limit but she would not trade occupations for all the housewife jobs this side of the Equator.

"With a family tree that is sailor enough to be a marine plant, it was natural enough for me to go on the lakes," Mrs. Godfrey explained. "My father, my husband and my son have all spent their lives aboard ship and there was no reason for me to be an exception."

"I took my first tug ride at the age of four months without getting seasick and after that my future was never in doubt."

Mrs. Godfrey passed her master's examinations in 1933. Before that time she worked in minor positions on various lugs in the Great Lakes but, she admitted, she has never taken time to learn to swim.

A Sir Walter Raleigh

In Labor Ficket Line
MEMPHIS, TENN.—No, brother Southern courtesy isn't dead yet!

Members of a local union were picketing a store here in a heavy rain, when up drove a lady customer.

One of the pickets broke formation to escort her with his umbrella into the store he was picketing.

Tiny Ants Collected; 12 Size of Pinhead

GRAND FORKS, N. D.—Dr. Neal A. Weber, biology professor at the University of North Dakota, believes he has eight of the smallest ants in the world taken from an African jungle.

He says the ants, so tiny that 12 together are the size of a pinhead, are the smallest of the world's 13,000 known ant species.

By L. L. STEVENSON

Thousands who make their living in New York are not real New Yorkers though some may have been born in the metropolis. I am referring to commuters, that great army which pours into New York in the morning and out again late in the afternoon. They are in business or are employed in the city, but they reside elsewhere. Westchester, Connecticut, New Jersey or perhaps Pennsylvania. Usually, they eat only one meal in New York—lunch. Breakfast is gulped at home, which may be as much as 90 miles away. Dinner comes at the end of a train ride. The news of New York and the world is not learned in the city but on trains to or from the city. Suburban trains are really reading-rooms. As soon as he finds a seat, whether at his station or in one of the terminals in the metropolis, the hardened commuter sticks his nose into a newspaper and keeps it there until he dashes for the door at his destination.

Not all commuters are train-readers, however. Many are bridge fiends. Various train crews look after them carefully. There is no delay in getting into action. Obliging brakemen hold seats and supply tables and cards. For such services they are remunerated, of course. Train bridge is almost invariably for money, from one-tenth of a cent a point on up depending on the financial standing of the players. So a kitty for the trainmen plus a remembrance at Christmas time. Brakemen like bridge players. But many a suburban mama complains about such a pastime on the ground that train bridge ruins papa for games with neighbors. There being a time limit, train bridge players are more inclined to gamble than bid on conventional values. And that has been known to bring about wife trouble.

Though they may not live far away from New York, commuters run up mileage in the course of a year. Take a resident of Larchmont, for instance. Though only a half-hour from Broadway, he rides 12,000 miles every 12 months in getting to and from business. If the commuter lives at Old Greenwich, a short distance over the Connecticut line, his annual mileage totals 18,600. If he lives as far away as Westport, Conn., or Amityville, Long Island, it will total 24,000 miles or around the world from a point near the Equator. There are daily commuters from Philadelphia. They travel 54,000 miles a year. In addition to train rides, many commuters have to use subways in New York and drive to and from their home stations. And that increases their mileage.

Many a mouse in New York is a lion in the town in which he sleeps. Most commuters take the affairs of their towns much more seriously than they do matters affecting the metropolis. For one thing, they do not vote in New York. For another thing, if they live in a suburban town, they usually own property. As everyone knows, the way a town is run has an effect on taxes and to a property owner, taxes are important. So suburban politics have great significance. The result is that a man who is merely a clerk in some big New York concern, may be mayor of his town or some sort of commissioner with authority, but no salary.

In many a village, the head of the fire department is the real big shot. Up-and-coming towns have paid members of the fire department, but they also have volunteers who are bosses of the paid men. A village fire department exists ostensibly to fight fires. Many departments fight fires so efficiently that insurance rates are low. But there is also the social side and that perhaps is the most important. Thus, if a man is physically able and isn't a member of the fire department, he is more or less of an outsider and can't expect to get very far in his community.

Moments are priceless to commuters. Hence, they are quick to learn all the short cuts. I have noticed that on many mornings in Grand Central terminal, which to me, is more or less a rabbit warren. But the experienced commuter knows exactly which hole to take to emerge at just the proper spot to dash to his office. And that's an accomplishment.

(Bell Syndicate—WNU Service.)

Summers, Winters Meet For Army Seasoning

CAMP UPTON, N. Y.—Recruit Leonard A. Winters, warmed quickly to army life after being placed in charge of Private Amos Summers of Wilmington, Del.

But Privates Winters and Summers didn't stay long together. Summers remained in the North and Winters went South to Camp Croft, S. C.

NOW THAT VACATION TIME IS OVER—

TAKE STOCK OF YOUR NEEDS FOR FALL

VIA ANTIQUA NEWS ADS

It was swell while it lasted. Days of carefree idling . . . out under the open sky, playing, dreaming, laughing and wishing that vacation would last forever. But, of course, every vacation comes to an end and back you go to your everyday life. Sometimes it is hard to adjust yourself—so many things to be done, so many details that need arranging, getting your household in shape, the children ready for school, shopping . . .

That is where the News comes in. Yes, we can take the shopping burden off your shoulders—that is what newspaper advertising is for. Instead of making long, arduous trips and shopping many stores for one article, you can pick up a copy of the Antiqua News and find not only what you are looking for, but find the best of its kind, at the lowest possible price. The advertising in the Antiqua News is a shopping guide, devised for your convenience.
